A Chance For An Average Person
To Be More Than Average

invites you to enjoy the
following presentation on
The Ultimate Choice

This presentation...

will outline a small business franchise that will enable you to generate an extra income

That income may be...

\$100 per month

\$1,000 per month

\$10,000 per month (plus a FREE car)

or more (plus a very expensive FREE car)

So ultimately...

...the question you need to answer is:

“Are you interested in
an **extra income?**”

We guess that...

The answer is “YES!”

But you probably have a few questions that you want answered.

So let's have a look at a few issues...

You probably want to know:

- What is the business?
- How do you make the money?
- What is involved?

Let us divide...

our presentation into three parts

- Why make a residual, **passive** income?
- What do you have to do to make the money?
- What does it involve?

We will need a few minutes...

to supply you with the answers.

So before we start you should decide if you want to spend some time evaluating a business that could **change your life**

...both your wealth **and** your health.

Want to find out more ... Then read on

Why make a passive income?

It revolves around three things:

- **Money**
- **Time**
- **Security**

Money

Would you like to make more money?

Perhaps more money than you currently make in your present job?

With the system we recommend, you can possibly generate more than your current income by working part-time about 5-15 hours a week.

Time

Clearly, this increased income would give you more **time** than you have now to spend on doing the things you like

Think of it...

- more **money**; *and*
- more **time** to enjoy it!

Security

As well, you can gain short-term **security**.

So, if you cannot go into work because of sickness or an accident **you will still get paid!**

Compare that to your current situation...

Long-term security

Additionally, you can gain long-term security.

This is important because there is no such thing as job security any more.

Never forget: you could get fired or laid off at any time!

You can also have more **money** for when you **retire...**

Retirement life today...

When you retire at 60 or 65 or older...

- You will have less income in retirement than you had when you were working;
- Yet most of us cannot achieve the life style you want while we are working (**money, time and security**);
- So it will be a disaster when you have to retire.

Passive income

It is all about the difference between **active** and **passive** income.

So let us explain this difference a little bit more...

A rich dad once said...

Robert Kiyosaki, author of such great books as *Rich Dad, Poor Dad*, *The Cashflow Quadrant* and *Rich Dad's Guide to Investing* explains in these books that all income is earned in four different ways, through four different income 'quadrants'...

The four income quadrants are:

E = Employment

S = Self-employment

B = Business ownership

I = Investing

Kiyosaki says...

In the **E** and **S** quadrants, income is generated by **actively** working for it. If you do not work, you do not get paid.

If you are involved with these quadrants you will make an **active** income.

About 95% of the population earn their money this way.

The **B** and **I** quadrants...

In contrast, in the **B** and **I** quadrants you can earn a **passive** income through the concept of leverage.

Leverage simply means using other people's time or other people's money.

Through leverage you can generate a **passive** income that can continue for your lifetime and beyond.

Leverage

You can leverage your time through:

- Franchised systems;
- Utilising other people ;
(employees or other franchisees)
- Investing money.
(yours or other people's)

However...

...it is very difficult for the average person to get into the **B** or **I** quadrants.

- It costs lots of money (**capital outlay**);
- You can easily lose your money (**high risk**);
- It requires training and experience (**expertise**);
- It takes up to 80-100 hours a week (**long hours**);
- It may take some time (**years**) to develop a positive cash flow;
- It probably has **high overheads**.

But what if there was a business ...

...perhaps you could call it

The Ultimate Choice

...where you could establish your own business, but there were **none** of the previous requirements?

You could own and run your own business...

- **Part time** (5 to 15 hours per week);
- **From home** (or your office if you wanted);
- With **no risk** and with only **\$150** outlay;
- With almost **no overheads**;
- Yet this business could earn you **\$100 to \$10,000** (or more) per month;
- And this could be a **passive** income.

All this is possible

And it comes with a FREE **franchised system** that **teaches and trains** you how to operate the business.

In addition, it comes with a FREE **marketing system** that allows you to conduct your business **quickly, cheaply** and **easily**.

Would you be interested?

Well, there are probably a few more details that you would like to know.

So let's look closer at this business ...

The business

The business you would become part of is

Fair Reward for Reasonable Effort

MiVeda products are unique

MiVeda produces Australian Made products that are different from most others in the marketplace and they are **Certified Organic** and are the right price.

The products are fantastic— so people keep buying them on a regular, on-going basis!

MiVeda is an online e-commerce store

MiVeda sells products online and pays Members for personally referring people to the online shopping store.

MiVeda pays a 15% pooled shared bonus to Member Leaders for all products sold to online customers via the MiVeda shopping cart.

MiVeda allows Members to offer 15% discount to their “Discount Customers” and at the same time pays 12% to Members who referred these customers to purchase from the shopping cart.

MiVeda pays a shared bonus of 3% on all Member monthly sales to qualifying Members (criteria apply).

MiVeda pays further bonuses on monthly sales volumes to Members who refer others to become Members and who purchase products. See the Rewards Plan for exact details.

Making money and profit

You can also get paid retail profit for selling products.

However, we rarely suggest selling large amounts of products, for two reasons:

- Many people do not usually want to sell;
- Retailing is an **active** income and we want you to generate a **passive income**.

Passive income

So if you want to create a passive income but you do not want to sell anything...

Then we recommend that you establish a **business** using the exclusive marketing tools which are available for FREE.

Your Own Business

This business can generate a substantial income over a reasonably short period of time if you work at it.

The business is a little different because it has multiple sources of income payments ...

MiVeda is called an “Affiliate or Influencer referral Company”.

How the concept works will be explained in a minute, but at this stage you might want to know the business figures.

In this business...

MiVeda pays a **total** of up to **50%** of the wholesale dollar (ie Member Prices) to its Members. This includes the product flow generated by Members who are introduced to MiVeda by you and others.

MiVeda additionally pays an extra 12% on the volume that you personally generate from your own promotional efforts with Discount Customers.

This means that...

In effect, you are paid “**royalties**” for helping and training the Members who become involved.

So what do you have to do?

Well, to go into the complete details would take longer than we have here.

However, we **can** give you a brief overview.

If you need more information, please ask the person who referred you to this website.

Of course, all of this information is **obligation free.**

“Show Me The Money!”

This is where you get to review how you can make more money...

- **\$100** per month
- **\$1,000** per month
- **\$10,000** per month (plus a FREE car)
- **or more** (plus a very expensive FREE car)

How to make \$100 per month

To make **\$100** per month you need to do these things:

- Do not change
- Use the products
- Tell people about the fantastic MiVeda products
- Hand out Discount vouchers to potential “Discount Customers”
- Ask people if they would like to earn extra money

Let us look at this in more detail ...

1. Do not change

Just keep on doing what you do normally when you communicate with people – while chatting, on social media, email, while eating or drinking or watching sport or on holidays.

Perhaps similar to you recommending ...

- A movie you liked
- A car you thought was great
- A trip you enjoyed.

Just keep doing what you do now and **do not change.**

2. Use the Products

If you are going to personally recommend products to people then you need to be honest with them and use the products and then recommend them. They are fantastic.

All we do is swap brands from products we purchased previously at Coles and Woolworths to using the fantastic natural MiVeda products.

3. Tell people

MiVeda has some exceptional products and we want to tell the world about them.

The reason is because **they are Certified Organic, natural products and do not have potentially harmful ingredients** in them (like sodium lauryl sulphate, formalin or propylene glycol). Even better, they are Made in Australia.

Why would you recommend them?

You will find that many products in the market place have undesirable ingredients in them that may be **detrimental** to people who use them.

MiVeda **products are safe for everyone** — including your kids — and they **really work**. **MiVeda products are Certified Organic and natural.**

And MiVeda nutritional products can literally be life changing.

4. Hand out Discount Coupons

MiVeda has some exceptional products and we want to tell the world about them.

MiVeda has set up a system whereby you can hand out a discount coupon (ie a code) which will allow your contacts to purchase products from the MiVeda Shopping Cart at 15% off RRP, but you will be paid 12% of MP on all purchases of these respective customers. All you do is give people a discount code – how hard is that?

5. Ask people

MiVeda is a great way to earn an extra income.

So ask people if that would interest them.

If it does, then give them some information (like a link to the MiVeda Member's Club website).

It doesn't get easier than that!

In Summary

You can use all the products because you will love them and buy them for your family. After all, why wouldn't you when they are so good?

Then all you have to do is recommend these products to a few people each month and give them a discount coupon (code) to purchase them via the MiVeda online Shopping Cart.

By doing this, you can easily get about **\$100 per month**

And that is it!

Want to earn much more than \$10,000 per month

To make **much more** you need to do these five things:

- **Do not change;**
- **Use the products;**
- **Send out lots of information (eg website details);**
- **Find some people;**
- **Establish a big business.**

Let us look at this in more detail...

1. Do not change

Just keep talking and sending information to people and recommend products you really like.

Just keep doing what you do now and **do not change.**

2. Use the products

MiVeda has some amazing products that we take great pride in. We are introducing them around the world.

They are unique and very effective, so we find that the products have a **high acceptance rate**.

This is because **the products work** and they are so good for you. They really can be life changing.

Some surveys show that more than 30% of the population wants to use “natural and green” products which are Certified Organic. MiVeda produces such products – at the right price.

3. Hand out information

MiVeda can be an extremely profitable business. It takes about 10 to 15 hours of work per week.

We invite people to become involved.

We do this by passing on information (eg website details, social media, information files like this one) to people who want help and advice on how to make some extra money.

Then we help them become successful.

4. Find some people

All you need to do is **find about 10 people:**

- Who want to make \$10,000 or more per month
- Who are prepared to work.
- And help them achieve their goals

The rest is up to you.

5. Establish a business

Over a 2 to 10 year period ...

- Between you and the people you talk to and those who they talk to and so on ...
- You can end up with **more than 1000 people in your business** who will buy the products and use them regularly.
- **Yet you only need to introduce about 10 leaders like yourself.**

The rewards

At the end of each month, MiVeda could deposit into your account a **bonus of over \$10,000**. MiVeda can also ask you to **buy the car of your dreams** and help pay for it.

You can be a respected and **recognised business leader**.

You can **travel** around the world each year – tax deductible.

You will be able to **quit your job** – tell the boss he cannot afford you any more.

You will be able to **do whatever you want** everyday, and **take holidays** whenever and wherever you like.

And that is it!

Would that be too hard to take?

What do you think?

Let us summarise...

This is a **legal** and **ethical** small business concept involved with referral marketing (not necessarily sales).

It can generate an enormous income for you which can provide:

- More **TIME** than you have now;
- More **MONEY** than you have now;
- More **SECURITY** for you, both now and in the future.

But...

You have to **want** to change your life from what you have now to what you could have...

You have to be prepared to work **part-time** for **2 to 10 years** to establish your business.

All that is required is to **pass on information** to people who are interested.

It is not easy ... but it **is not hard**.

In fact it is about as **easy** as it gets in business (and it is a lot easier than a job).

So, what do you think?

Is it worth giving it a go?

This business concept works...

You might ask...

- **Can I do it?**

Yes you can and we will help you...

- **Will it work for me?**

Yes it can and we will show you...

- **What will my friends think?**

They will probably want some information about it too...

Change your life

You can change your life with this business.

Do you want to be a victim of your circumstances forever?

Will you volunteer to have a life of constant regret?

You can do it!

One final question...

What is important for you?

- Extra money
- Better health?
- Helping others?
- Financial freedom?
- Owning your own business?
- More time?
- Financial security?
- Retirement income?

**You
Choose!**
